

# Learn to Read the Future with the **Mystic Fortune Telling Cards™**

Congratulations on your purchase of the Mystic Fortune Telling Cards! These ancient fortune telling cards have allowed seers throughout the ages to call upon the Secret Energies of the Universe. Now you can use your very own deck to divine the answer to any question!

To begin, clear your mind and concentrate on a question about the future. With the question firmly in mind, shuffle the cards. Now lay out each of the Mystic Fortune Telling Cards, face down (red side up), in four rows of four cards.

## **Opening Your Mind to Cosmic Connections**

At first, the Mystic Fortune Telling Icons on the card backs may seem bewildering, but as your Third Eye opens and you begin to receive cosmic wisdom, you will perceive the Cosmic Connections between the cards. For example, you may see an image of a dog on one card, and an image of a tree on another, and suddenly think of the dogwood tree in your front yard. This is a Cosmic Connection! Learning to recognize and interpret these connections is key to divining the answer to your question.

Reposition connected cards next to each other. Continue in this fashion until all sixteen cards have been placed.

## **Using the Mystic Fortune Telling Worksheet**

Now that you have attuned yourself to the Cosmic Connections, write the symbols on the Mystic Fortune Telling Worksheet provided. The Worksheet has 16 frames, one for each card, that correspond to the card's current position on the table.

Write the Mystic Fortune Telling Icons into their assigned spaces (clockwise from the top of the card: North, East, South, and West).

At the center of the card, you will find the Mystic Fortune Telling Letter, which you should write into the Center slot (CTR). Surrounding this letter are the three Mystic Fortune Telling Numbers, which you should also write into the spaces next to the CTR slot. Numerals are read from the center out, so if you're unsure if you're looking at a "6" or a "9", hold the card so the digit is between you and the center Letter.

Clear your mind again, and concentrate on the five highlighted letters (N, E, S, W, and CTR) you have written on the worksheet. When combined and rearranged, these will suggest the next step in your journey of discovery, the Master Symbols. For example, if the highlighted letters are M, R, T, S, and O, you might rearrange them to spell STORM. Record the Master Symbol for each of the sixteen cards in this fashion.

## **Interpreting Your Fortune**

Gather up the cards and shuffle through them, face up, as you focus on the Master Symbols. You will find these Master Symbols echoed in the imagery of the cards. When you find one, write the card's name in the final CARD spaces of the Worksheet, and circle the letters indicated by the Mystic Fortune Telling Numbers. For example, if the Numbers are 3, 6, and 7, you will circle the 3rd, 6th, and 7th letters.

When the Worksheet is complete, copy the card names and their circled letters into the Mystic Fortune Telling Solution Sheet to reveal your answer. Your Intuition will help guide you in placing the cards into the correct rows.

Please note: Fortune telling is an art, and the success of your efforts depends on your intuition and psychic ability. For this reason, we do not accept returns. All sales of the Mystic Fortune Telling Cards are final.
